

TWO HINDUS SHOT IN SIKH TEMPLE DEAD

Priest and Badan Singh Die in General Hospital as Result of Affray in Hindu Quarter on Saturday.

Bhag Singh, president of the Sikh Temple, Second Avenue, and Badan Singh died at the General Hospital on Sunday as the result of the shooting affray in the temple during the funeral of Argan Singh on Saturday. Argan Singh had been shot through the throat at 1747 Third Avenue West on Thursday by Ram Singh, the coroner's jury bringing in a verdict of accidental death. Both Bhag Singh, shot through the lungs and the abdomen, and Badan Singh were given every assistance possible by the hospital authorities, who, it is believed, have succeeded in bringing eight other Hindus, shot at the same time, out of danger.

Before his death Bhag Singh, in the presence of Mr. Israel I. Rubinowitz, J.P., Inspector Hopkinson of the Immigration Department and of officials of the police department, made a statement of the circumstances surrounding the affair at the temple. In this ante-mortem statement he is alleged to have identified Bela Singh, a man in the service of the Immigration Department, as the Hindu who did the promiscuous shooting while the rest of those at the funeral were engaged in prayer. Bhag Singh's version was, it is said, about the same as that published in "The News-Advertiser" on Sunday.

An inquest will be held into the death of the priest and Badan Singh at Harron Brothers' undertaking parlors at 2:30 p.m. on Wednesday. Eighteen Hindus were detained by the police in connection with the affray. Nine have been released by the police, however, after an examination.

DEPRESSION IN MINING

Slight Depression Is Expected as Result of War But Silver Business Should Soon Improve.

By News-Advertiser Leased Wire.

Ottawa, Sept. 7.—That some depression in the mineral production of Canada will be inevitable as a result of the war is the opinion expressed in a review of mining conditions by an official of the committee of conservation as regards silver. It is pointed out New York is but the shadow of the London market and silver mines throughout the world are rendered idle by the lack of demand for their product.

In the Cobalt camp the complete or partial closing of a number of mines has resulted already in throwing a great number of men out of work. However, as Britain maintains the mastery of the sea, the business in silver with India and China will probably be resumed. As the lead production of Canada is refined at home, with Montreal as the principal market, this industry will not be seriously injured.

Frontiersmen Seek Funds.

It is today within the power of the citizens of Vancouver to land the first Canadian, and perhaps the first of all the colonial mounted troops in London on their direct way to the front. On September 17 there is a boat sailing from Montreal and if Captain Sloan of

Hon. Richard Harcourt of Welland, Ont., who has the distinction of having had one of the longest continuous terms in any Canadian parliament, arrived in the city yesterday morning, accompanied by Mrs. Harcourt. They are staying at the Hotel Vancouver. He sat in the Ontario Legislature from 1878 to 1908, thirty years without a break, and during that time he was a member of the government for fifteen years.

In conversation with a representative of "The News-Advertiser" he stated two things impressed him very favorably during his trip to the coast, the remarkable display of loyalty to the British Throne in the present crisis, and the rapid growth and development of the country since his previous visit. He believes the war will do much to consolidate Canadian sentiment and to draw all parts of the Empire closer together. Ontario has always been regarded as the great province of Imperialistic sentiment, but the other provinces were showing that in time of danger they were just as loyal to the old flag.

British Efficiency.

Mr. Harcourt paid a tribute to the energy and efficiency of Lord Kitchener and instanced the arrival in Europe of the first contingent of Indian soldiers as an example of the speed with which he did things. He said there was no doubt as to the ultimate outcome of the struggle but that might be a long way off.

Speaking of political conditions in Ontario, Mr. Harcourt said that the present Liberal leader, Mr. N. W. Rowell, had made a mistake in committing his political fortunes. The "Abolish-the-Bar" policy was considerably in advance of the time. The province was not ready for it. The temperance movement had made immense strides in Ontario in the last thirty years, but public

COMB SAGE TEA IN LIFELESS, GRAY HAIR

If Mixed With Sulphur It Darkens So Naturally Nobody Can Tell.

Grandmother kept her hair beautifully darkened, glossy and abundant with a brew of Sage Tea and Sulphur. Whenever her hair fell out or took on that dull, faded or streaked appearance, this simple mixture was applied with wonderful effect. By asking at any drug store for "Wyeth's Sage and Sulphur Compound," you will get a large bottle of this old-time recipe, ready to use, for about 50 cents. This simple mixture can be depended upon to restore natural color and beauty to the hair, and is splendid for dandruff, dry, itchy scalp and falling hair.

A well-known downtown druggist says everybody uses Wyeth's Sage and Sulphur because it darkens so naturally and evenly that nobody can tell it has been applied—it's so easy to use, too. You simply dampen a comb or soft brush and draw it through your hair, taking one strand at a time. By morning the grey hair disappears; after another application or two, it is restored to its natural color and looks glossy, soft and abundant.
