Committee "Komagata Maru"

Dear Sirs:

I am in receipt of your letter of the 9th inst. and am most heartily sorry for you. I have seen Mr. Rahim, one of the charterers, this morning and he says he does not propose to send out any more food or water to the Ship. He puts the whole burden upon the Government, now that you have agreed to waive Boards of Enquiry and go back. I think the Government will supply food. I am writing them today, sending copies of letters, and shall urge upon them immediate action for your relief. Be assured I wish that it were in my power personally to be of some service to you, as I feel that your condition is pitiable.

Yours truly,

"J. Edward Bird"
