<p>02-02-77 Cst. Dhillon continues to perform his duties in a most acceptable manner. He is particularly busy with his position as an investigator or detective - generalist within the is acceptable. He always has a purpose for what he does and would be worth to go for the future. He has a clear idea what he wants from his career in the force and is willing to do the work to achieve it. He is loyal, hard working and takes any part contribution given to him in a positive light and put it to work for him. The work with profibus pei work is giving a comprehensive overview when he had little experience, but they are always due to lack of experience and practice very happens with when they are in a position that is from the capacity of responsibility. He has shown that he can be trustworthy in his quality of a report and that when put with little evidence he can be counted on in interviews and towards a profession. In this one report he is working towards to develop confidence and techniques as an interviewer. Cst. Dhillon</p> <p style="text-align: right;">B. Dhillon 02-02-77</p>
